VEEDER-ROOT

TLS-450 PLUS

Proven Wet Stock Management. **Problem Solved.**

Proven Protection

Always know your business status and maintain control of your fueling operations using the automated compliance and site management solutions of the **TLS-450PLUS**.

Web-enabled remote connectivity allows you to monitor your site performance, receive real-time alerts, and access compliance data via web-enabled devices, anytime and anywhere. Your sites are always inspector ready, and security roles only let inspectors see what you determine.

Proven Precision

Best-in-class wet stock management software comes standard on the **TLS-450PLUS**, providing crucial inventory, delivery, and alarm information that is always current and accessible.

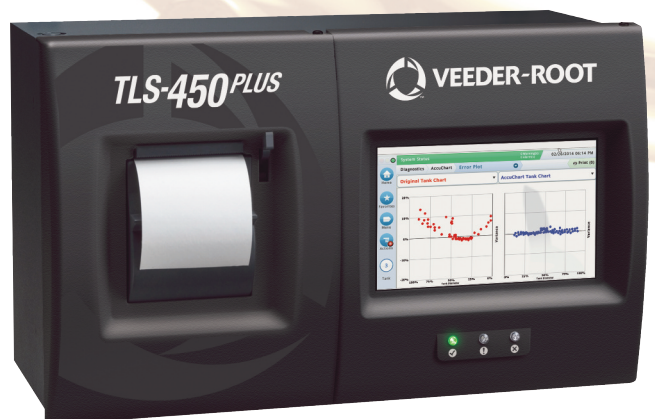

Combine the enhanced features of AccuChart and Business Inventory Reconciliation (BIR) to realize the most precise picture of your fuel assets at all times and improve your ability to identify sources of site variance.

Proven Profit

Operate at peak efficiency with the **TLS-450PLUS** monitoring system to reduce inventory shortages and site down time.

Deploy the diagnostic tools to troubleshoot site issues remotely and avoid unnecessary dispatch. Register the **TLS-450PLUS** to gain access to the **Remote Software Download** functionality to keep your console on the latest software version without scheduling a site visit.

“The **TLS-450^{PLUS}**
combines precision
performance with
scalability and
sophistication.”

Proven Partner

Founded nearly a century ago, Veeder-Root is the global leader of automatic tank gauges, backed by an unmatched service network. Around the globe, more than half a million petroleum marketers and commercial fueling businesses enjoy increased profits and protection of their fuel assets with Veeder-Root's solutions.

Our proven company history, combined with our precise wet stock management tools, delivers results that matter and the protection your business deserves.
